Nexans Ref.: N701.144

- Suitable for all LANmark Snap-In connectors
- 4 shuttered ports
- Textured white finish
- Supplied with screws

DESCRIPTION

Application

This American style wallplate is designed to accommodate four LANmark Snap-In connectors. It has a single gang format according to standard US dimensions.

A one port and two port version are also available (N701.141 and N701.142) - please refer to the specific datasheets.

Design

The Snap-In ports have incorporated spring loaded shutters which prevent dust entry in the connectors when no patch cord is inserted.

The wallplate comes in white (RAL 9016) with a fine textured finish.

The plastic material is UL 94V-0.

Installation

LANmark Snap-In connectors can easily be inserted in the apertures with a simple one-click operation.

The wallplate is supplied with two screws for mounting onto a standard US wall box. The screwheads are painted white in order to enhance the appearance of the finished wall outlet.

The product is individually bagged and comes in boxes of 500 pcs.
